

Call for Tenders

for editorial work

This call is for a journalistic summary of various workshops held during a conference on the Global Green New Deal, a sectorial three-day conference, which took place last year in Brussels. The workshops were recorded and will be made available to the author. The content of the audio files is to be compiled into a summarising text to be published on the website of the Rosa-Luxemburg-Stiftung Brussels. The aim is to make the results of the conference comprehensible and accessible to an interested public. The variety of topics of the workshops ranges from Just Transition and the right to mobility to energy justice and financing opportunities on a global scale. The detailed programme can be found below in the download section.

Summary of the task: Create a summary (approximately 1 page) for each panel of the conference
